CUSTOM MADE TEAMWEAR

CKS was established in 2012 and while its focus in the early years was on Cricket equipment, it didn't take long for the brand to expand into Sports Apparel and eventually Team wears for all sports. The Custom Made Team wear division has grown considerably. It's a design, production, sales of Sportswear Corporation with a strong design team and high production ability. Offering excellent quality and reasonable price of team wear for customers. In the past 4 years, we have been adhering to the "integrity", "kindly", concentrating on the "beyond ourselves", sticking to concept of "Always achieving high goals" principle.

Manufacturing your needs at affordable prices.

CKS sources all raw materials only from the leading factories. Stocking a wide range of fabrics, trims and accessories. We are able to cater for a speedy turnaround and also for a huge range of garments. Our quality control is also a feature. Our Quality control team checks all work at every stage of the process. All items are then checked again before we hand over to you, so that we can maintain our high level of work

MANUFACTURING TO YOUR NEEDS

Stocking a wide range of fabrics, and accessories, we are able to provide quick turn around and also provide for a huge range of garments. Our quality control is also a feature as our QC team in the factory checks all items

Before they are shipped to us guaranteeing that the product ordered will be the product we delivered to our customers and will be of high quality that we pride ourselves on. Choose from one of the many patterns in the catalogue and you will have a unbeatable quality finished product that will improve your team/club/business image.

STYLE

Choosing team wear clothing, whether it be polo shirts, tracksuits or pants should be the starting point for any form of custom clothing. You must decide what style of clothing is best suited to your application. CKS makes this easy by offering a wide variety of fabrics, colours and design options through our various clothing cuts and sublimation options. Browse through the catalogue to see our wide variety of choices for team wear clothing, or work with our designer to design what's best for your needs.

CUTS & COLLARS

Although the style of the shirt makes a difference in the fit and feel so does the cut and the collar type. CKS comes in 3 simple cut options including tight, tapered and straight. With the collar options CKS opens up a vast array of options from a standard collar right through to a low profile sport collar. After the three customizable steps have been completed sizing and quantity then needs to be addressed.

DETAILING: (Logos, etc)

CKS can include a wide variety of decals and detailing. Team logos, sponsors and many other items fall under the decal and detailing category and this requirement is best to get sorted out early on in the process

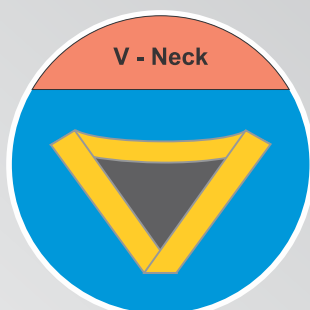

SIZING & QUANTITIES

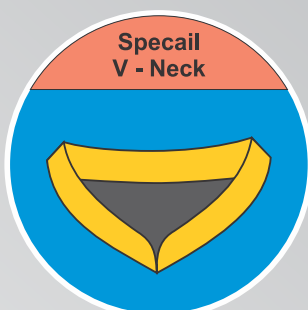

After these 3 steps have been completed sizing and quantity then needs to be addressed so your order can be placed in the production process.

- Colours stay bright

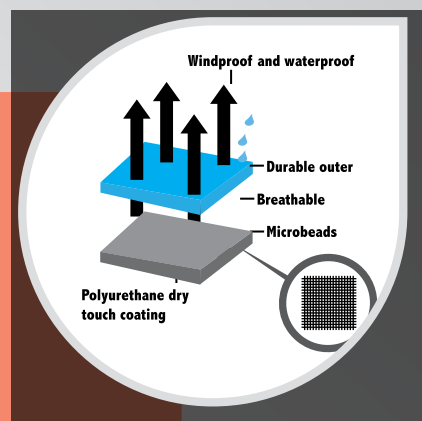

Antibreeze

Antibreeze fabric provides lightweight insulation for cold weather warmth and comfort.

Ripstop

- Water Proof
- Ripstop feature
- Colours stay bright
- Seam seal available
- Wind Proof

Sublimation

Sublimation is a method whereby colours, patterns and logos are applied via a heat process that allows a lot of detail and decoration to be added to the garment. You can have our Pantone colour pallet and can pick your colour out of it.

Screen Printing

Used to apply logos and decoration via the use of high quality thread to give your garment a premium finish. Perfect for your club logo

Embroidery

Screen printing is a printing technique that uses a woven mesh to support an inkblocking stencil. Perfect for large runs of the same logo.

Thermo

Thermo transfer is cut out from high quality stock material and is applied via heat presses. Perfect for names and numbers.
